| D&B Score Explanation | | |
| D&B Failure Score | 92 | % of businesses on the Italian database which have |

the same or higher risk of failure, compared to this business, within the next twelve months.

This score is derived using advanced statistical models and D&B data. 1 represents the highest risk and 100 the lowest.

Decisive criteria that influenced the risk evaluation for this company are:

- Subject is an established business.
- The analysis made on the last 12 months show that the trend of payments is regular.
- The analysis of the payment experiences, related to the last month, point out that the obligations assumed by the company are settled within the agreed terms.
- The analysis made point out that the net worth results to be suitable in comparison to the total indebtedness.
